## IAM MODERNIZATION, HEAR ABOUT SUCCESS!

### PRESENTERS:

Mandi Witkovsky, Director of Identity & Access Management, Purdue University

Charise Arrowood, Executive Director of Business Development, Unicon, Inc.

- 
- The background of the slide is a photograph of the iconic Purdue University archway. The archway is a large, dark metal structure with the words "PURDUE UNIVERSITY" in white, spaced-out letters. It is supported by two tall, light-colored stone pillars. The pillars have small lanterns on top and some inscriptions on their sides. In the background, there are brick buildings and trees under a cloudy sky. A paved walkway leads through the archway.
- ## Agenda
- Identity Modernization, things to think about!
  - Identity Modernization Story, Purdue University
  - Identity Modernization, The Start
  - Where is Purdue University today?
  - What Steps are Next to Come?
  - Questions & Answers!

modernization  
success mfa goals  
identity strategy  
analysis provisioning  
planning communication  
objectives teamwork leadership  
vision collaboration  
security governance
