THE VISION

MS-CC envisions a transformational partnership to promote the development of advanced **cyberinfrastructure (CI)** capabilities at HBCU, HSI, TCU, and other MSI campuses. We are advancing connections across campuses around data, research computing, teaching, curriculum development, professional development, and capacity-building.

We will learn and grow as a consortium, lifting participating institutions by advancing cyberinfrastructure that impacts diverse fields, disciplines, and communities in ways that reflect our unique voices and interests.

We will engage as full participants in the global CI and R&E communities
